PUNE-411007

Sub: Supply of Ricoh Copy Printer Model: Dx 2430 as per DGS&D Rate Contract.

Ref: **RC No.** AMP/ME-6/RC-D10J0000/0913/06/F0706/1130 dt. 12th Oct 2012
Amendment No. AMP/ME-6/RC-D10J0000/0913/06/F0706/1130/49560 **Dated:** 12-NOV-13

Dear Sir,

At the very outset we thank you for the interest shown in our Ricoh Products by your valuable Organization.

This refers to the immediate Printing requirements of various educational Institutions under University of Pune for online Examination Papers.

Ricoh Copy Printer/Automatic Master printer Model Dx 2430 which is under DGS&D Rate Contract Prints at the speed of 90 copies per minute on various grades of Papers & it is very much useful for the purpose of printing of online Examination Papers in very short duration of time.

With reference to above DGS&D Rate contract for Ricoh Copy Printer/Automatic Master Printer Model Dx 2430, we wish to confirm the following:

The above referred DGS&D Rate Contract has expired on 31st of Dec'2013, however you may place the referral order on the above same Rate Contract, which shall immediately be processed & executed at our end.

We also confirm that in the event, price for this category of Model in new Rate Contract is higher than above referred Rate Contract, we shall not recover any additional amount from your end.

Please note that the old DGS&D Rates would be valid till the new DGS&D Rate Contract comes into effect. Once the new Rate Contract comes into effect, the new rates would be applicable.

So we request you that for your immediate requirements you can Place the referral order on this DGS&D Rate contract with the same terms & conditions as mentioned in the above rate Contract at the earliest.

Thanking you and assuring the best of our services at all times.

For Ricoh India Limited

ANNEXURE

1. Suppliers shall have all the testing facilities to verify the functional performance, standard features, special features and optional features of the machines. They shall also possess testing arrangement for High Voltage test, Insulation Resistance test, and measurement of power consumption.
2. Type test reports shall be from any govt. laboratory duly indicating the serial number of the tested machine and actual test results value for all specified parameters as well as for environmental tests. Type test reports shall also include the following tests.
 - a. Printing Speed measured on minimum and maximum GSM of the paper.
 - b. Quality of printing reported at minimum & maximum speed with minimum, median & maximum GSM of the paper before and after environment test sequence. This shall be comparable with the quality of the printing before environmental tests sequence. The Print out of all these tests duly authenticated by the testing lab shall form a part of the TTC.
 - c. Environmental tests sequence:
 - I. Dry Heat Test : For 16 hrs. at a temp. of 45 degree C in accordance with IS:9000/Part-3/Section-5/1977 (reaffirmed in 2004).
 - II. Cold Test : For 4 hrs. at a temp. of (-)10 degree C in accordance with IS:9000/Part-2/Section-4/1977 (reaffirmed in 2004).
 - III. Damp Heat Test : For 2 Cycles of 24 hours (12+12h) each at a temp. of 40 degree C & 95% RH in accordance with IS:9000/Part-5/Section-2/1981 (reaffirmed in 2004).
- All the features and parameters shall be checked before environmental conditioning sequence as above and after recovery of 2 hours after environmental conditioning sequence as above. The results shall be satisfactory.
3. The suppliers shall furnish the following documents at the time of inspection for each and every lot.
 - a. Bill of Entry, Purchase Invoice & Bill of Lading.
 - b. Packing list
 - c. Certificate of country of Origin
 - d. Serial number along with model number pertaining to import covered by above documents.
 - e. Manufacturer's test certificate
 - f. Catalogue/ specification sheet of the manufacturer.
 - g. Back up guarantee/warranty and after sales services support for the machine serial numbers offered from the authorised official of the foreign manufacturer in the following format.

"I/We who are the manufacturer of----- (name and description of the goods offered) having factory(ies) as provided for the R/C at----- (Name & Complete address of the factory(ies) hereby certify that the following machine/model Nos. bearing Sl.Nos. mentioned against each were exported by us to M/s.----- (Name & address of the Indian Supplier).

Item	Model No.	Machine Sl.Nos.	Invoice No.
------	-----------	-----------------	-------------

The aforementioned machines were tested in our premises and found to be satisfactory as per the contract specifications.

We hereby extend back-up guarantee/warranty and after-sales-service in support, in case the Indian supplier do not perform their obligations.

The above certificate shall be on the letter head of the Manufacturer and shall be signed by the legally competent officer of the company or by

Ambyshankar

an authorised person having power of attorney of the manufacturer along with the copy of such authorization, to bind the manufacturer legally.

SPECIAL NOTES TO TENDERERS:

1. Only one Agent or Subsidiary or distributor who enters into direct agreement with foreign principle and not through any intermediary channel can be only considered as a valid Agent, who can be registered
2. The foreign manufacturer has to declare with documentary evidence that they have adapted/tropicalized the equipment to suit Indian climatic conditions, as per clause 5.3.2 (c) of manual; and can prove the performance of the same at the premises in India (Testing facilities required at firm's premises are for functional and performance parameter only and not for Type Testing and environmental testing as these testings have to be get it done from Govt. Lab). The firms meeting these conditions, in addition to other conditions of registration in vogue, shall only be considered for registration as 'supplier of imported stores'. Mere submission of test report for environmental testing will NOT be treated as sufficient unless above declaration is also furnished by the importer, along with their application for registration and tender enquiry.
3. Supplier of Imported stores must submit a notarized affidavit from their foreign principal (OEM) that the product/model number being quoted against the tender is currently undergoing production and have NOT been discontinued by them. The OEM shall further undertake that they shall continue to provide support to the product/model no. being quoted, during their warranty period. Such an undertaking shall be submitted at the time of registration, bidding and during EACH inspection.
4. As per CVC Circular No.03/01/12 dated 13.1.2012,
 - a) In a tender, either the Indian agent on behalf of the Principal/OEM or Principal/OEM itself can bid but both cannot bid simultaneously for the same item/product in the same tender.

b) If an agent submits bid on behalf of the Principal/OEM, the same agent shall not submit a bid on behalf of another Principal/OEM in the same tender for the same item/product.

5. Multiple agents of same manufacturer (Indian or foreign) cannot participate in bid for the same item/product. 6. Firms registered with DGS&D or seeking registration/capacity assessment in the category of: (a) Indian agent of Indian Manufacturer & the registration and inspection shall be carried out at Indian Manufacturer's works.

(b) Supplier or Imported Stores (i.e. Indian Agent of Foreign Manufacturer) & the registration and inspection shall be carried out at Indian AGENT's (Supplier of Imported Stores) premises/works.

7a. Firms must submit their application to concerned QA Office for fresh or renewal of registration/capacity assessment/special capacity assessment PRIOR to at least 21 days before the scheduled date of tender opening, failing which application may NOT be entertained.

b. Tenderers shall be registered with DGS&D or NSIC (based on capacity report of DGS&D) to become eligible to quote against the T/E.

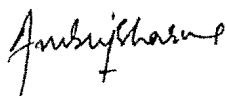

8. Registration for all scheduled items including add on items and in lieu items are required on the date of tender opening. It means all the items/models quoted against all schedules by tenderer have to be registered on the date of tender opening.

The procedure/guidelines to grant registration of all spares, accessories, add-on items and in-lieu-of items required for proper functioning of Equipment.

(I). The registration for all the scheduled items including add-on items/in lieu items, spares and accessories is required before the date of tender opening as per Clause 9.13.2 of DGS&D Manual which is reproduced below:

¿A firm is considered registered for such items of stores for which the registration has been specifically granted. The firm should be in the approved list maintained by the Registration Branch of the DGS&D for this purpose.¿

(II). However, the procedure and policy to consider registration of spares and accessories including add-on items/in lieu items requested by an Indian supplier

along with a request for main equipment will be in line with Clauses 13.20.1, 13.20.5(a) and 13.21.6(b) reproduced below and as per clause 13.22.2:

Refer clause 13.20.1 of DGS&D Manual

While spares and accessories which are essentially required for functioning of the main equipment, can be included in the rate contracts for the main equipments, rate contract will be concluded, as a policy, for following categories of spares :

a) OEM Indigenous Spares with Original Equipment Manufacturers;

Refer clause 13.20.5 of DGS&D Manual

Spares other than for engines of imported and indigenous machinery may be purchased from :

b) OEM, OEM approved units or established OE suppliers.;

Refer clause 13.21.6 of DGS&D Manual

b) Such or the bought-out items which form a part of an assembly or sub-assembly for which the firm is registered and is entitled for rate contract, could, however, be considered for inclusion in the registration/rate contract as individual item also.;

III The relevant guidelines mentioned in paras 13.20.1, 13.20.5(a), 13.21.6(b) and 13.22.2 of DGS&D Manual will be the basis for registration of items, i.e., spares and accessories, add-on items and in-lieu items, provided the firm are registered for the main equipment, for which the above items are required for functioning of main equipment. No separate agreement, documents like test reports etc. are required for these items if they are being registered for the main equipment for which above items are required for proper functioning.

IV. Firms quoting for spares /accessories, add-on items and in-lieu items alone, only and not quoting for main equipment/item are required to be registered as per the relevant T/E specification. Agreement, documents, test reports etc. applicable for the spares/accessories, add-on items and in-lieu items are required to be furnished for registration of these items

Automatic Master Printers with digital scanning and thermal screening system

1. Automatic Master Printer shall comprise of starter kit, one master roll, one ink cartridge of black colour. Alternative colour can be given if so desired by the indenter depending upon the availability with the supplier.
2. Automatic Master Printer shall be suitable for use at 230 +/-10% V, 50 Hz single phase AC supply as per detailed specification
 - a. Processing : Digital scanning on masters using thermal screening
 - b. Paper weight (gsm) : 50 to 80
 - c. Original document weight (gsm) : 50 to 107.
 - d. Resolution : Minimum 200X300 dpi.
 - e. First print : 60 sec
 - f. Print speed : 60 & 90 CPM (Two selectable print speed)
 - g. Dimension in mm : To be declared by the tenderers.
 - h. Power requirement : 230V +/-10%, 50 Hz.
 - i. Paper tray capacity feed/receive: 250/250.
 - j. Master disposal capacity : 5 number.
 - k. Features : News paper mode, Scanning contrast adjustment, Print speed control, Print position adjustment, Print/ Master count display.
1. Special features : To be declared by the tenderers.

**Proposal for Ricoh Copyprinter/Automatic Master Printer Model
DX 2430 as per DGS&D Rate Contract**

Ref:RIL/CP/BCUDUOP/13-14

Date: -5/3/2014

Prepared for: The Director,
BCUD, University of Pune,
Ganeshkhind, Pune.

RICOH

Prepared By: Amol Salunkhe

Territory Manager

Mob: (+91) 9881545985

Ricoh India Ltd. Pune.

Ph: 91 (20) 305 80 158/60

Dear Sir/Madam,

We are pleased to introduce our new model which is DX **2430** from one of the largest office equipment company in the world and in India. We manufacture and market digital copiers cum **MFD's, DIGITAL DUPLICATOR CUM COPY PRINTERS**

Our digital duplicator/Copy printer range enables you to print large copying volume such as Question Papers, Training Materials, Tender Forms, Circulars, and Certificates & day to day stationery formats etc. These can be printed at a very high **speed of 90 Copies per Minute** and on variety of paper that too at most **economical copy cost**. Thus digital duplicators gives you running cost advantage that of an ordinary duplicator (Cyclostyle) and ease of operation that of a Photocopier, thus making it most suitable and economical machine for your needs.

Please find enclosed herewith the proposal for Ricoh - Digital Duplicator / Copy Printer Model **DX 2430** with detailed specification, having speed of 90 PPM & print on any grade of **paper between 35 to 128 GSM**.

It will help you to print all your on line question papers ,Training Materials, Tender Forms, Circulars, and Certificates & day to day stationery formats etc. at very economical per copy cost.

We trust that you will find the machine most suitable for your requirement & place your valuable order for the same.

If you need any further information please contact.

Thanking you,

Yours faithfully,

For **RICOH INDIA LIMITED**

What is mean by CopyPrinter?

It is a document reproduction system, which combines the best elements of 3 established office technologies. The sophistication of a digital scanner for capturing an 'image' of the document to be produced, the simplicity and usability of a copier and the cost advantage of commercial duplicating/printing systems.

What type of CopyPrinter does the CopyPrinter address?

The CopyPrinter is well suited to any applications requiring multiple copies for each original.

Major benefits of CopyPrinter Technology:-

Substantial cost savings over alternate forms of document reproduction systems and improved office productivity from greater system uptime & higher speed output.

CopyPrinter advantages:

- ☑ It can handle large print runs more reliably and economically.
- ☑ It can print on a greater variety – types and weights of paper.
- ☑ It is easy to print in spot colour.
- ☑ It requires no warm-up time.
- ☑ It is more economical for runs above 30 prints per original.
- ☑ There is more print volume at higher speeds for less capital investment.
- ☑ It has the capability of moving the image up and down as well as left & right.
- ☑ It has low maintenance requirement.
- ☑ It is highly reliable.
- ☑ It produces consistently excellent quality.
- ☑ It requires only one master per original for multiple prints.
- ☑ It is computer connectable.
- ☑ It can edit the original with the make-up function.

Laser Printer Disadvantages:

- ☑ The laser printer is a slow process to make many copies.
- ☑ There is a high cost per copy with a laser printer.
- ☑ A skilled operator is required to run the computer system.

Offset Duplicator Disadvantages:

- ☐ A skilled operator must be trained.
- ☐ The necessary set up & clean down process for the equipment is long, tedious & messy.
- ☐ Offset requires a time consuming two step process to prepare the plate before putting on the press.

Stencil Duplicator Disadvantages:

- ☐ A stencil must be prepared in a time consuming two step process before putting on a duplicator.
- ☐ There is a limited versatility.
- ☐ There is no reduction, no combine two originals & no special edit functions.

Copier Disadvantages:

- ☐ It is more expensive for long run copies.
- ☐ High speed and high volume copiers are expensive.
- ☐ It requires regular maintenance & is prone to breakdowns.
- ☐ Additional air conditioner is must for optimum use.
- ☐ A warm-up period is required for copiers.
- ☐ Due to dry process the copies tend to fade long time.

Applications:

Admission Forms, Question Papers, Assessment sheets, Forms, Circulars, Reports, Letters, Office Stationary, Bulletins, Internal Magazines, etc.

Fast and cost-efficient performance

CopyPrinter DX 2430

Straightforward productivity

High-speed printing does not have to be expensive. The CopyPrinter DX 2430 offers excellent value for your money. Printing an impressive 90 pages per minute, this system is both reliable and user-friendly. Adding spot colours or editing documents for a professional look is easy. This CopyPrinter turns into an extra-fast printer when upgraded with a PC controller.

- High performance • Smart paper feed • Easy colour drum change • Several editing functions • Optional PC controller

Quality at low cost

Swift service

- Attain excellent productivity levels at 90 prints per minute
- Job flow from master-making to printing takes only one minute
- Turn your CopyPrinter into a high-speed printer with the optional PC controller

Easy and high-quality colour

Spot colour printing becomes uncomplicated and inexpensive with the DX 2430. The colour drum is easy to change. Ten standard colour inks and unlimited custom tints are available. The device offers 300 dpi fine print quality. You obtain the best image printing directly from your PC with the optional PC controller.

Durable and reliable

- New ink pump: Reduced maintenance costs and increased reliability
- Reliable paper feed: Separation mechanism, adjustable feed pressure

Gestetner

TOTAL DOCUMENT SOLUTIONS

Edit directly

- Enlarge, reduce or combine originals without creating a second-generation original on PC
- Get fine print results with mixed documents by using photo/letter mode

Work with thin paper

Do you use light paper types? With the DX 2430 your productivity is never compromised. This system automatically detects a misfeed and instructs the feed system to retry. The DX 2430 handles paper as light as 35 g/m² without any problems.

Think green

Lower your energy bill and reduce your carbon footprint at the same time. The CopyPrinter's printing process does not require any heat. For that reason, it uses significantly less electricity than conventional printers. The CopyPrinter goes easy on the environment – and on your pocket. Lack of emissions ensures a healthy and sustainable work environment.

CopyPrinter DX 2430

To Whom It May Concern

Dear Sir,

This is to certify that **M/s. Centurian Marketing** (Mb. No. 09822493623) is our Authorised Channel Partner for sale of RISO products under the following DGS&D Rate Contracts held by us:

1. R.C. No.: **DIG.DUP/ME-6/RC-D5010000/0713/06/ F0764/1126** dated 12/10/2012 for Digital Duplicator.
2. RC. No. : **AMP/ME-6/RC-D10J0000/0913/06/F0763/1131** dated 22-OCT-12

They are authorised to collect & execute orders in the name of **M/s. Centurian Marketing** (Mb. No. 09822493623), on our behalf, for the products covered by the Rate Contracts, as per the terms & conditions of the above mentioned Rate Contracts. Further, we confirm that we shall standby for warranty and service of the products sold by them.

We understand that the current RC is under renewal and expect the new RC in due course. In the meantime & to facilitate orders under process, as special case our Authorised Channel Partner may supply the machines at same terms and conditions as in the RC mentioned above. In case of any change in terms and conditions of the RC on or before the date mentioned below, our partner is committed to honor the same.

This certification is for **M/s. Centurian Marketing** only and not for any of its dealers / channel partners.

Validity of this certificate is till new DGS&D rate contract is issued or 31st March 2014 whichever comes first.

ANNEXURE

1. Supplier shall have all the testing facilities to verify the functional performance, standard features, special features and optional features of the machines. They shall also possess testing arrangement for High Voltage test, Insulation Resistance test, and measurement of power consumption.
 2. Type test reports shall be from any govt. laboratory duly indicating the serial number of the tested machine and actual test results value for all specified parameters as well as for environmental tests. Type test reports shall also include the following tests.
 - a. Printing Speed measured on minimum and maximum GSM of the paper.
 - b. Quality of printing reported at minimum & maximum speed with minimum, maximum & maximum GSM of the paper before and after environment test sequence. This shall be comparable with the quality of the printing before environmental tests sequence. The Print out of all these tests duly authenticated by the testing lab shall form a part of the TTC.
 - c. Environmental tests sequence:
 - I. Humidity Test : For 16 hrs. at a temp. of 45 degree C in accordance with IS:9000/Part-3/Section-5/1977 (reaffirmed in 2004).
 - II. Cold Test : For 4 hrs. at a temp. of (-)10 degree C in accordance with IS:9000/Part-2/Section-4/1977 (reaffirmed in 2004).
 - III. Heat Test : For 2 Cycles of 24 hours (12+12h) each at a temp. of 40 degree C & 95% RH in accordance with IS:9000/Part-5/Section-2/1981 (reaffirmed in 2004).
- After the features and parameters shall be checked before environmental condition sequence as above and after recovery of 2 hours after environmental condition sequence as above. The results shall be satisfactory.
3. The Supplier shall furnish the following documents at the time of inspection for every lot.
 - a. Bill of Entry, Purchase Invoice & Bill of Lading.
 - b. Invoice list
 - c. Certificate of country of Origin
 - d. Consignment number along with model number pertaining to import covered by the documents.
 - e. Manufacturer's test certificate
 - f. Name/ specification sheet of the manufacturer.
 - g. Guarantee/warranty and after sales services support for the machines with serial numbers offered from the authorised official of the manufacturer in the following format.

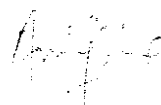

"I, _____ (name and designation) of the goods offered) having factory(ies) as provided for the R/C above _____ (Name & Complete address of the factory(ies) hereby certify that the following machine/model Nos. bearing Sl.Nos. mentioned against were exported by us to M/s. _____ (Name & address of the Indian Supplier).

Model No.	Machine Sl.Nos.	Invoice No.
-----------	-----------------	-------------

The identified machines were tested in our premises and found to be satisfactory as per the contract specifications.

We hereby extend back-up guarantee/warranty and after-sales-service in case the Indian supplier do not perform their obligations.

This certificate shall be on the letter head of the Manufacturer and signed by the legally competent officer of the company or by

and a duly authorized person having power of attorney of the manufacturer along with a copy of such authorization, to bind the manufacturer legally.

SPECIAL INSTRUCTIONS TO TENDERERS:

1. Only the Principal or Subsidiary or distributor who enters into direct agreement with the Principal and not through any intermediary channel can be only considered a valid Agent, who can be registered.
2. The manufacturer has to declare with documentary evidence that they have adapted/modified the equipment to suit Indian climatic conditions, as per clause 4 of manual; and can prove the performance of the same at the premises in India (Testing facilities required at firm's premises are for functional performance parameter only and not for Type Testing and environmental testing as these testings have to be get it done from Govt. Lab). The firm failing these conditions, in addition to other conditions of registration, can only be considered for registration as 'supplier of imported equipment'. Submission of test report for environmental testing will NOT be considered unless above declaration is also furnished by the importer, along with application for registration and tender enquiry.
3. Such imported stores must submit a notarized affidavit from their foreign principal that the product/model number being quoted against the tender is currently in production and have NOT been discontinued by them. The OEM shall undertake that they shall continue to provide support to the product being quoted, during their warranty period. Such an undertaking shall be submitted at the time of registration, bidding and during EACH inspection.
4. As per Circular No.03/01/12 dated 13.1.2012,
 - a) Either the Indian agent on behalf of the Principal/OEM or Principal itself can bid but both cannot bid simultaneously for the same item.
 - b) If the agent submits bid on behalf of the Principal/OEM, the same agent shall not submit bid on behalf of another Principal/OEM in the same tender for the same item.
5. Multiple bids of same manufacturer (Indian or foreign) cannot participate in the same item/product.
6. Firms registered with DGS&D or seeking capacity assessment in the category of:(a) Indian agent of Indian Manufacturer (b) Imported Stores (i.e. Indian Agent of Foreign Manufacturer) & the registration and inspection shall be carried out at Indian AGENT's premises/works.
- 7a. Firms shall submit their application to concerned QA Office for fresh or renewal of capacity assessment/special capacity assessment PRIOR to at least 21 days before the scheduled date of tender opening, failing which application may be rejected.
- b. Firms shall be registered with DGS&D or NSIC(based on capacity report of DGS&D) and eligible to quote against the T/E.

ANNEXURE

1. Suppliers shall have all the testing facilities to verify the functional performance, standard features, special features and optional features of the machines. They shall also possess testing arrangement for High Voltage test, Insulation Resistance test, and measurement of power consumption.
2. Type test reports shall be from any govt. laboratory duly indicating the serial number of the tested machine and actual test results value for all specified parameters as well as for environmental tests. Type test reports shall also include the following tests .
 - a. Printing Speed measured on minimum and maximum GSM of the paper.
 - b. Quality of printing reported at minimum & maximum speed with minimum, median & maximum GSM of the paper before and after environment test sequence. This shall be comparable with the quality of the printing before environmental tests sequence. The Print out of all these tests duly authenticated by the testing lab shall form a part of the TTC.
 - c. Environmental tests sequence:
 - I. Dry Heat Test : For 16 hrs. at a temp. of 45 degree C in accordance with IS:9000/Part-3/Section-5/1977 (reaffirmed in 2004).
 - II. Cold Test : For 4 hrs. at a temp. of (-)10 degree C in accordance with IS:9000/Part-2/Section-4/1977 (reaffirmed in 2004).
 - III. Damp Heat Test : For 2 Cycles of 24 hours (12+12h) each at a temp. of 40 degree C & 95% RH in accordance with IS:9000/Part-5/Section-2/1981 (reaffirmed in 2004).

All the features and parameters shall be checked before environmental conditioning sequence as above and after recovery of 2 hours after environmental conditioning sequence as above .The results shall be satisfactory.

3. The suppliers shall furnish the following documents at the time of inspection for each and every lot.
 - a. Bill of Entry, Purchase Invoice & Bill of Lading.
 - b. Packing list
 - c. Certificate of country of Origin
 - d. Serial number along with model number pertaining to import covered by above documents.
 - e. Manufacturer's test certificate
 - f. Catalogue/ specification sheet of the manufacturer.
 - g. Back up guarantee/warranty and after sales services support for the machine serial numbers offered from the authorised official of the foreign manufacturer in the following format.

"I/We who are the manufacturer of----- (name and description of the goods offered) having factory(ies) as provided for the R/C at----- (Name & Complete address of the factory(ies) hereby certify that the following machine/model Nos. bearing Sl.Nos. mentioned against each were exported by us to M/s.----- (Name & address of the Indian Supplier).

Item	Model No.	Machine Sl.Nos.	Invoice No.
------	-----------	-----------------	-------------

The aforementioned machines were tested in our premises and found to be satisfactory as per the contract specifications.

We hereby extend back-up guarantee/warranty and after-sales-service in support, in case the Indian supplier do not perform their obligations.

The above certificate shall be on the letter head of the Manufacturer and shall be signed by the legally competent officer of the company or by

an authorised person having power of attorney of the manufacturer along with the copy of such authorization, to bind the manufacturer legally.

SPECIAL NOTES TO TENDERERS:

1. Only one Agent or Subsidiary or distributor who enters into direct agreement with foreign principle and not through any intermediary channel can be only considered as a valid Agent, who can be registered
2. The foreign manufacturer has to declare with documentary evidence that they have adapted/tropicalized the equipment to suit Indian climatic conditions, as per clause 5.3.2 (c) of manual; and can prove the performance of the same at the premises in India (Testing facilities required at firm's premises are for functional and performance parameter only and not for Type Testing and environmental testing as these testings have to be get it done from Govt. Lab). The firms meeting these conditions, in addition to other conditions of registration in vogue, shall only be considered for registration as 'supplier of imported stores'. Mere submission of test report for environmental testing will NOT be treated as sufficient unless above declaration is also furnished by the importer, along with their application for registration and tender enquiry.
3. Supplier of Imported stores must submit a notarized affidavit from their foreign principal (OEM) that the product/model number being quoted against the tender is currently undergoing production and have NOT been discontinued by them. The OEM shall further undertake that they shall continue to provide support to the product/model no. being quoted, during their warranty period. Such an undertaking shall be submitted at the time of registration, bidding and during EACH inspection.
4. As per CVC Circular No.03/01/12 dated 13.1.2012,
 - a) In a tender, either the Indian agent on behalf of the Principal/OEM or Principal/OEM itself can bid but both cannot bid simultaneously for the same item/product in the same tender.
 - b) If an agent submits bid on behalf of the Principal/OEM, the same agent shall not submit a bid on behalf of another Principal/OEM in the same tender for the same item/product.
5. Multiple agents of same manufacturer (Indian or foreign) cannot participate in bid for the same item/product.
6. Firms registered with DGS&D or seeking registration/capacity assessment in the category of:(a) Indian agent of Indian Manufacturer ; the registration and inspection shall be carried out at Indian Manufacturer's works.
 - (b) Supplier or Imported Stores (i.e. Indian Agent of Foreign Manufacturer) ; the registration and inspection shall be carried out at Indian AGENT's (Supplier of Imported Stores) premises/works.
- 7a. Firms must submit their application to concerned QA Office for fresh or renewal of registration/capacity assessment/special capacity assessment PRIOR to at least 21 days before the scheduled date of tender opening, failing which application may NOT be entertained.
 - b. Tenderers shall be registered with DGS&D or NSIC(based on capacity report of DGS&D) to become eligible to quote against the T/E.
8. Registration for all scheduled items including add on items and in lieu items are required on the date of tender opening. It means all the items/models quoted against all schedules by tenderer have to be registered on the date of tender opening.

The procedure/guidelines to grant registration of all spares, accessories, add-on items and in-lieu-of items required for proper functioning of Equipment.

 - (I). The registration for all the scheduled items including add-on items/in lieu items, spares and accessories is required before the date of tender opening as per Clause 9.13.2 of DGS&D Manual which is reproduced below:

‘A firm is considered registered for such items of stores for which the registration has been specifically granted. The firm should be in the approved list maintained by the Registration Branch of the DGS&D for this purpose.’
 - (II). However, the procedure and policy to consider registration of spares and accessories including add-on items/in lieu items requested by an Indian supplier

along with a request for main equipment will be in line with Clauses 13.20.1, 13.20.5(a) and 13.21.6(b) reproduced below and as per clause 13.22.2:

Refer clause 13.20.1 of DGS&D Manual

While spares and accessories which are essentially required for functioning of the main equipment, can be included in the rate contracts for the main equipments, rate contract will be concluded, as a policy, for following categories of spares :

a) OEM Indigenous Spares with Original Equipment Manufacturers;

Refer clause 13.20.5 of DGS&D Manual

Spares other than for engines of imported and indigenous machinery may be purchased from :

b) OEM, OEM approved units or established OE suppliers.;

Refer clause 13.21.6 of DGS&D Manual

b) Such or the bought-out items which form a part of an assembly or sub-assembly for which the firm is registered and is entitled for rate contract, could, however, be considered for inclusion in the registration/rate contract as individual item also.;

III The relevant guidelines mentioned in paras 13.20.1, 13.20.5(a), 13.21.6(b) and 13.22.2 of DGS&D Manual will be the basis for registration of items, i.e., spares and accessories, add-on items and in-lieu items, provided the firm are registered for the main equipment, for which the above items are required for functioning of main equipment. No separate agreement, documents like test reports etc. are required for these items if they are being registered for the main equipment for which above items are required for proper functioning.

IV. Firms quoting for spares /accessories, add-on items and in-lieu items alone, only and not quoting for main equipment/item are required to be registered as per the relevant T/E specification. Agreement, documents, test reports etc. applicable for the spares/accessories, add-on items and in-lieu items are required to be furnished for registration of these items

Automatic Master Printers with digital scanning and thermal screening system

1. Automatic Master Printer shall comprise of starter kit, one master roll, one ink cartridge of black colour. Alternative colour can be given if so desired by the indenter depending upon the availability with the supplier.
2. Automatic Master Printer shall be suitable for use at 230 +/-10% V, 50 Hz single phase AC supply as per detailed specification
 - a. Processing : Digital scanning on masters using thermal screening
 - b. Paper weight (gsm) : 50 to 80
 - c. Original document weight (gsm) : 50 to 107.
 - d. Resolution : Minimum 200X300 dpi.
 - e. First print : 60 sec
 - f. Print speed : 60 & 90 CPM (Two selectable print speed)
 - g. Dimension in mm : To be declared by the tenderers.
 - h. Power requirement : 230V +/-10%, 50 Hz.
 - i. Paper tray capacity feed/receive: 250/250.
 - j. Master disposal capacity : 5 number.
 - k. Features : News paper mode, Scanning contrast adjustment, Print speed control, Print position adjustment, Print/ Master count display.
 - l. Special features : To be declared by the tenderers.

LIST OF ALL AMENDMENTS

For RC No. AMP/ME-6/RC-D10J0000/0913/06/F0765/1132

NOTE: No Amendments issued till date 23-OCT-12

RD-3608A

Low Cost

The duplicator has also furnished a perfect printing solution of low cost and high speed to customers expecting to print batches of materials, and the more you print, the lower cost for each of the printed material.

Low Cost Print Sketch Map

Energy Saving

Automatic energy saving control system, promote your office environment.

Enlargement / Reduction

You can reduce or enlarge your original in four ways: Standard allows you to resize a standard size original to another standard paper size (B4→A3, A4→B4 etc).

Multi-colour printing

With a simple drum change, multiple colour printing is available

PC Interface

Equip standard USB interface, is a perfect printer. High-speed computer connect function save your time and improve the working efficiency.

⊙ Traditional way: It takes 4 hours and need participation of the operator

⊙ It takes two procedures, and the operator only needs to practice distant controls on the panel.

- ⊙ Time saving
- ⊙ High efficiency
- ⊙ Excellent quality
