Development, Delivery and Evaluation of E-Content

Date : 03.08.2020 To 07.08.2020

OBJECTIVES: The COVID-19 pandemic has dramatically changed the whole scenario of teaching-learning methods and techniques. It has initiated with the distinctive need for e-learning and accepting remote and digital platform to impart knowledge. An urgent need to adopt teaching learning strategies which will become the new Normal post COVID-19 times. Imparting education in future will be a new pedagogy.

To meet the progressive needs of time it is very important that a teacher utilizes different tools and techniques for sharing their knowledge and skills.

Teachers of higher education have to break the traditional methods of teaching learning and prepare themselves for a new form of teaching –learning process through development, delivery and evaluation of E-content. It is time to accept and adopt teaching skills and techniques, methods of curriculum development, creation of E-content, evaluation of E-content with the use of the latest information technology.

OUTCOMES:

- A deeper understanding of creating and developing e-content
- Awareness of different online interfaces and course creation
- Building a platform for creating and delivering online content to the stakeholders.
- Create e-content through different open source software's
- Preparation of online assignments and quizzes
- Grading and evaluation of e-content
- Designing a framework for effective implementation of E-content.
