

**1. Yashwantrao Chavan Memorial Lecture 26 Sept 2014 by  
Dr. Pratap Bhanu Mehta**

The lecture was in two parts. The first sketched a broad outline of the kind of world India needs to navigate and some general objectives and sensibilities it will have to take into account. The second part examined particular challenges for India: the politics of nostalgia that creates a peculiar form of social disorder in world politics, and the stuck politics of South Asia.
