

Support just Struggle of Baliapal people Against Proposed Missile Base

***Prevent India Becoming a Pawn in the Nuclear War
Game of two Super Powers***

Since the last six months the people of Baliapal in Orissa are carrying on the struggle against the establishment of proposed missile base. Although they have started the struggle to defend their homes and hearths, their struggle is also a struggle in defence world peace and opposed to war preparations of Indian ruling classes and their treaty-bound master-Soviet Union. Starting with appeals, they have gone to the stage of all out non-co-operation with the government machinery in area of proposed missile base. Gheraoing the Collector and other senior officials of the district on March 2, 1986 for more than ten hours and making the police machinery ineffective by human walls is only a pointer to this.

Today the Baliapal people are in a just struggle which is not only in their own interests, but also is in the interests of all peace-loving people throughout Orissa and our country as a whole.

We call upon all democratic, patriotic, peace-loving and revolutionary forces of the country to support and extend the Just struggle to save one lakh people of Baliapal from ensuing eviction, to prevent India from becoming a pawn in the nuclear war game of the two super powers and save the country from the nuclear holocaust.

April 14, 1986.
