

Two Days Industry oriented workshop on Computer Aided Drug Discovery

19th-20th Nov 2011

Organized by

Vijnana Lifesciences Pvt Ltd, Bangalore and Institute of Biotechnology and Bioinformatics,
University of Pune

Vijnana Lifesciences Pvt. Ltd (www.vijnanalifesciences.com) in collaboration with Institute Of Biotechnology and Bioinformatics (IBB), Pune University is organizing an industry oriented 2 days workshop on “Computer Aided Drug Design and Discovery” at Pune for students and lifescience professionals. The workshop is intended to train and make aware the participants about the various aspects of Drug Design and its techniques used in Industry. Moreover this would also enable Industry-Academia Interactions as many personalities from Industry would deliberate on various topics and impart hands on training to the participants.

Moreover to enable the students to have a flair of the Industrial software we are organizing the workshop with commercial software used in the Industries in real time projects. This type of workshop would be the first of its kind in India.

Who should attend:

Industry professionals, Faculty members of academic institutes, UG/PG/MPhil./Phd students of various disciplines of lifesciences.

Program highlights:

- ✓ Hands on training on the commercial software
- ✓ Lectures and training by professionals from different pharma companies.
- ✓ Workshop completion certificate from the Vijnana and Vlifesciences.
- ✓ Hands on practical on the commercial software
- ✓ Industry driven certificate
- ✓ Resource persons from Pharma Industry and Academia like Lupin, Vlife, CRL
